Dantzick, April 3. N. S.

THE King of *Poland* has put off for some days his Journey to *Warsaw*, intending first to meet the Elector of *Brandenburg*, who will arrive at *Conigsberg* in *Prussia* towards the middle of this month. The opening of the General Dyet will in all appearance be put off till the 15th of *May*; some of the Lesser Dyets, which according to the Custom are to precede it, being adjourned to the 9th Instant; others, we hear, have been held with good success, and that of *Upsalem* resolved to send a Deputation to His Majesty to assure him of their Loyalty, and make some Requests to him; one of which is, That he would not hearken to the desires of those who insist on a Dyet on Horseback. In the mean while his Majesty is providing for the security of our Coast, and went last Wednesday to view the Fortifications of *Terwmude* and *Putzk*, in order to direct the making such Additions and Reparations as might be necessary to render those Places of good Defence against any Force that may attack us by Sea.

Vienna, April 7. Besides the Auxiliary Forces which the Duke of *Saxe-Gotha* and the Bishop of *Wurtzburg* are to send into *Hungary*, which amount to between 6 and 7000 Men, the Circle of *Bavaria* has agreed to furnish 4000 more, and the Archbishop of *Saltzbourg* about 1000, which are forthwith to march thither. The Galleys on the *Danube* are fitting out with all possible diligence, and the 5 which are yet on the Stocks will be launched in a few days, being to fall down that River without their Guns and Rigging, by reason of the shallowness of the Water. The Duke of *Lorrain* has put off his Journey to *Nancy* till towards the end of this month. The *Danube* being now free from Ice, Recruits arrive daily from the several parts of the Empire, which are sent hence by Water into *Hungary*. The Count *de Metternich* died lately here, who was General of the Artillery, Governor of *Great Glogau* in *Silesia*, and Colonel of a Regiment of Foot. Our Letters from the Frontiers say, a Serasquier being come to *Belgrade* with a Reinforcement of fresh Forces, and a considerable Sum of Money for paying off that Garison, was gone into *Bosnia*, to give the necessary Orders for the Security of that Frontier; and that the Turks were making preparations for the Line they design to make along the *Save*, intending likewise to rebuild their small Forts along the *Danube* which our Forces had ruinated in the last Campagnes.

Berlin, April 5. The Elector of *Brandenburg*, having been these 6 days at his Seat called *Cuningsberg*, about 4 miles distance from this place, returned hither on his coming, and is now preparing for his Journey to *Prussia*, which he intends to begin the 9th Instant, and to arrive the 17th at *Conigsberg*. Count *Wolff* is daily expected here as Envoy from the King of *Denmark*, as likewise Monsieur *Desallours* with the same Character from *France*. Monsieur *Chasteauneuf* is arrived here lately in his way to *Warsaw*, whither he is going to reside as Envoy Extraordinary from the Courts of *Hannover* and *Zell* in the room of Monsieur *Huge* who is recalled home.

Strasburg, April 7. The Cities of *Frankendal* and *Brisack* will now shortly be evacuated, and the Marquis *d'Uxelles* intends to go thither in a few days, to be present at the delivering up of those Places. The 4 Forts between this City and the Bridge upon the *Rhine* are quite razed, as is likewise that at the end of the Bridge. No time is yet fixed for the Evacuation of *Philipsburg* and the Fort of *Kiel*.

Hamburg, April 11. Our Burghers were assembled yesterday to make choice of a Senator in the room of the Sieur *Krul* lately deceased, and adjourned till Tuesday next. We have advice from *Copenhagen*, that the King of *Denmark* has agreed to send his Troops that are in *Hungary* into the King of *Poland*'s Service, together with 1800 more from these parts, which will go by Sea to *Rostock*, and thence will march into *Saxony*.

Brussels, April 12. The Elector of *Bavaria* made on the 8th Instant his Entry at *Mons*, where he was received by the Governor and Magistracy of that Place with much Civility and Respect. His Electoral Highness will thence go to *Mariemont* and *Charleroy*, and is expected back next Tuesday. The King of *Spain* has conferred the Government of the Citadel of *Antwerp*, vacant by the Promotion of Count *Grajales* to the Vice-Royalty of *Navarre*, on the Count *de Pimentel*, who was Governor of *Charleroy*. Our last Letters from *Madrid*, which are of the 27th of *March*, say, his Catholick Majesty is perfectly recovered of his Indisposition.

Hague, April 15. N. S. Monsieur *Hop*, who is appointed to reside on the part of the States-General at *Vienna*, is expected here this evening from *Amsterdam* to receive his Instructions, in order to his Journey thither.
